**■ Cautions**

- Cautiously route all wires so they cannot be easily pulled out, pinched or damaged.
- Do not press on the LEDs or other components on the strip.
- Do not twist and bend less than 60mm diameter.
- Do not install the product in an environment, with direct exposure to sunshine, water, oil or corrosion.
- Ensure that the mounting surface is clean, dry and free from oil, grease or wax.
- For the best effect, the power wire of each LED strips should be connected to the driver.
- The power rating of the driver is suggested to be at least 20% higher than the total required wattage of the strip(s) being powered.
- Do not drive the strip before completely releasing it from the reel.
- Switch OFF power at the mains before installing the LED strip. Check the supply voltage and wire connections before switching the power on.
